## Mission Statement

We are a local, privately owned manufacturer of high quality preschool and school-age children's furniture, classroom equipment and libraries. Our mission is to provide our customers with the highest quality products at the most competitive prices. First and foremost, all our products are designed with the child's safety and enjoyment in mind, as well as the long-term satisfaction of the educator.

## Service and Delivery

We design and manufacture most all our products. We deliver all of our products in our own trucks, fully assembled and blanket wrapped. We place them where you want-you won't have to lift a finger and we won't leave until you are 100% satisfied with your purchase.

## Design

At Defoe Furniture 4 Kids, we design everything with your kid's safety and enjoyment in mind, from our smoothly sanded surfaces to our pinch-proof spaces around the doors of our dramatic play line. Our goal is to satisfy our customer's design needs. When we make updates to our product line we use your valued input. We also provide a comprehensive custom design service for your special needs. You tell us what you want and we make it happen-for less than you might think!

## Pricing

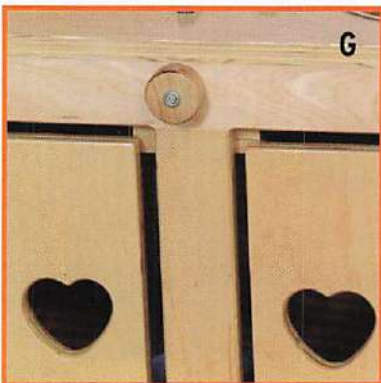

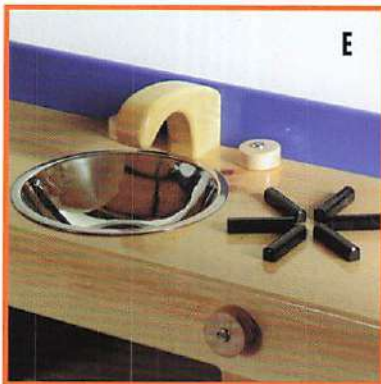

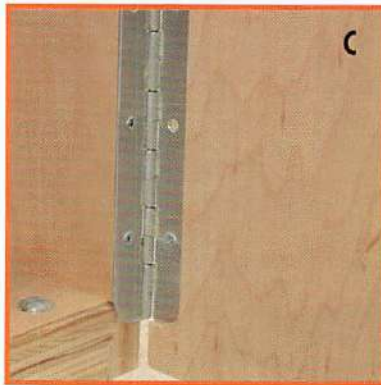

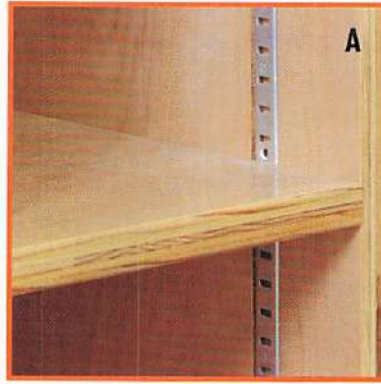

We guarantee you will not find a better product at a lower price!

## QUALITY AND CONSTRUCTION

- Every piece of furniture in our product line is constructed with the highest-grade materials available. We use furniture-grade maple plywood for the majority of our products. This 3/4" veneer provides additional product integrity and strength, adding to the life of our product.
- We use a catalyzed varnish that is a high-quality, heavy-duty coating - far superior to our competition.
- All joints are glued and screwed, then covered with wooden pegs for a more sturdy construction and smooth look.
- Our edges are all rounded and sanded smooth for children's safety and a clean look (E).
- We offer pinch-proof door openings in most of our kitchen units to keep small fingers safe (G).
- We started using full-length piano hinges twenty years ago and continue to do so because of the added strength to the finished product (C).
- Our adjustable shelving units have aluminum tracking and our ceiling hooks are cast aluminum for added strength and durability (A, F).
- We use sturdy rubber casters on all our mobile products. Our Teacher Storage Cabinets have 5" solid rubber casters with locks and our Booktrucks have 5" double-plastic wheels with locks. All casters are secured in place with either four screws or four bolts, depending on the size of the caster (D).
- Wrap-around hinges on our Computer Cabinets allow the doors to swing all the way back and stay out of the way (H).
- Cam locks are standard on our Computer Cabinets, AV Cabinets, Teacher Storage units and more (B).
- All our products are manufactured to Woodworking Institute of California (W.I.C.) standards or better.

Here at Defoe Furniture 4 Kids our number one goal is to satisfy our customer's needs. For the last 20 years we have strived to consistently produce a high-quality, long-lasting and attractive product line for our customers. We want to give a special thanks to all our customers who, over the years, took the time to write us letters complimenting our products and our company.

## TO WHOM IT MAY CONCERN:

Mr. John Defoe has supplied our play yard with several unique and creative pieces of outdoor equipment. All of his products are very well constructed for many years of durability.

His items for the two and three year olds are solidly made and offer hours of imaginative play without any hazard to the child.

Children are fascinated with the Choo-Choo Train and Trolley Car and we have gained many new students who have visited our school and seen the equipment on our school yard.

Please come by our school and see our playground.

Very truly yours,

ATTN: Mr. John Defoe and Ms. Gina Defoe

Dear John, Gina and Staff

On behalf of our preschool board and staff, I want to thank you for the excellent service we received on the acquisition of our lofts. We are so blessed to have had an opportunity to work with you. Thanks, John, for the time and effort it took to make them especially for our school! It's a "hit" with the kiddos, staff and parents!! ☺

As you may know, our lofts were obtained through a grant, which we received through the County of Los Angeles (Community Development Commission). Because we were only designated a set amount of funds per loft, we were not really sure if we were going to be able to have enough funds for each classroom.

This is why I am so appreciative to you all for the "trust" you had in us to go ahead and make the lofts, install them, then wait for the funds to be released. This really helped me because of the Grant Commission's 15 day "turn-around" time to show proof of purchase. I am so glad that you all understood and were so willing to help with our situation. Thank you, also, for being patient with us as in all that we had to deal with regarding the "rod-tape" in obtaining the grant funds.

Enclosed is the payment for the lofts. I am confident that CKP will be calling you for more of your handiwork! Again, we thank you for your diligence to serve children and centers like ours with your talents and creativity! If you have any questions or comments, feel free to contact me.

Sincerely,

Melody E. Torralba

**F. LARGE SAND AND WATER TABLE**

Tired of your sand and water table breaking down after such a short amount of time? Then it's time to try ours. Constructed with 2" X 6" pine pieces, the joints are glued and screwed and covered with wooden pegs for extra strength and structural integrity. Endural™ makes the tub container and they vacuum-form it from sheets of high-density polyethylene that make it impervious to oils, most chemicals, rot, solvents and temperature extremes. Vacuum-forming produces a stress-free solid, one-piece container that is resistant to cracking. It has a durable metal drain system, a brass drain valve, full-width handle and heavy-duty rubber casters. The casters make it a breeze to move and will support the weight when the tub is full of sand or water. It comes complete with a top so that can be converted into an extra play surface indoors or out.

### A. DEFOE LOFT SYSTEM

Our remarkable and highly functional loft system creates a wonderful place for children to play and learn. We offer both a small loft, which comfortably holds ten children, and a large loft that holds twenty children.

The bottom floor has three wall panel options: a square window, a porthole or a puppet/market window. The front stair unit comes with the loft and, once in place, fits snugly against it. Mix'n' match all the components to create a unique loft system for your classroom. When you add some kitchen pieces, a table and chairs you create an exciting, roomy and safe place for kids to play underneath the loft. The carpeted second floor is a cozy place for kids to curl up with a book, game or puzzle or sit and listen while the teacher reads. The Vivak™ window panels are shatterproof, extremely durable and are easy to see through allowing kids to look out and teachers to look in. We have constructed our lofts with solid oak for durability, strength and safety.

Our brightly colored line of outdoor play equipment will liven up any playground! All of our pieces are Defoe originals and are built with the child's safety and enjoyment in mind. Smoothly sanded surfaces, rounded edges, sturdy pine and heavy-duty coatings are standard. Each piece offers a wide range of play activities and provides shade areas for outdoor play. Wide-open construction allows for easy supervision by playground personnel.

**A, B. SMALL AND LARGE CYCLONE RIDERS**

Put kids in our cyclone riders and watch their imaginations soar! From the wildest roller coaster ride to the longest trip anywhere-all without moving. Designed for tough outdoor play or for use in the classroom. This is one of our most popular items.

**A. SMALL CABLE CAR**

Our version of the famous San Francisco Cable Car has enough room for 12-16 passengers. The driver can use our functional phone to communicate with passengers at the rear of the coach. Kids can enter and exit from the front, back or one of the two side openings. Two out-facing seats in front add to the realism of this cable car. It rests on it's own attached track for permanent and level installation and has a galvanized steel roof for years of play. Our large cable car (not shown) has an additional driver area, two additional out-facing seats and two additional exits.

## C. LARGE PLAYHOUSE

This big beautiful playhouse is another Defoe original! It has a full-width table, two benches, two sinks and stoves, shelving and a big open doorway for easy access. The sink features a durable stainless steel bowl that is permanently attached with hot and cold faucet knobs that actually turn. The stove has raised burners and simulated knobs so kids will feel like they are really cooking up something good. Expect hours of enjoyment and fun playing in our unique and realistic playhouse. An 8' x 8' x 4' foundation provides strength and stability and ties this ruggedly constructed house together for years of use.
